and wafers
for the whole
family

Kier

Kier is a company that was born out of a passion for creating **the highest quality delicious interleaved wafers and powdered pastilles**. The company has been on the market since 1991. From the very beginning, we have been building the image of our company as **a solid and reliable partner**, which makes customers eager to return to us. What distinguishes us from the competition is our openness to all the needs of the modern market, as well as our constant development in **upgrading our production lines**.

In order to provide **services at the highest level**, we have also implemented the HACCP system, i.e. a precise procedure aimed at ensuring food safety by identifying and assessing the scale of both health risks and those arising during the course of all stages of production.

Interleaved wafers

Known and loved by everyone, interleaved wafers are an extremely versatile and delicious addition to coffee or tea. Sącz wafers from our offer are made in a traditional way and undergo a special technological process. For production we use only high-quality ingredients while giving the product a unique and delicious taste.

Tasty pastilles

In addition to interleaved wafers, we also offer colorful powder pastilles in various shapes and flavors. These candies are made by mixing high-quality raw materials, which are then subjected to the pressing process in modern tablet machines of various designs. Powder pastilles will satisfy the palate of not only all children, but also adults. They are also ideal as a sweet treat at a meeting with friends or family.

We offer our customers a wide range of products packed in boxes and packages of different weights. The products are created only from high quality ingredients supplied by our trusted business partners.
